## SAFE-T-LOCK™ STL 1000

### SAFE-T-LOCK™

#### REF 125TA5079

- 12-120 VDC
- Waterproof IP65
- Up to 99 different users/drivers  
The STL requires entry of a two-digit user number and valid 4- to 8-digit access code before the vehicle can be operated. All user codes can be reprogrammed and unused user numbers can be temporarily disabled for additional security.
- 1 programmable supervisor code  
Entering the supervisor's menu allows you to change the supervisor's code into your own desired 4- to 8-digit code.
- Last user identification  
The STL1000 can identify to the supervisor the user number of the last user of a vehicle.
- Automatic shut-off after 3 minutes (fixed time) of vehicle inactivity  
The STL1000 incorporates a feature that detects vehicle activity. If the vehicle has been inactive for more than 3 minutes, the STL1000 will deactivate, securing the vehicle.
- Maintenance alert after 250 hours  
This feature can be activated or deactivated by the supervisor.

RoHs conform

# PROGRAMMABLE CODE SWITCH

For all our latest catalogue updates and company info: [www.tvh.com](http://www.tvh.com)

We offer a complete range of programmable code switches to prevent unauthorized use of your vehicles. All keypads are designed for use on both battery and I.C. engine powered vehicles.

## PROGRAMMABLE SECURITY LOCK PSL

Basic Security Lock that allows controlled access to vehicles, so that only those persons with the user code can start and operate the vehicle.

### REF 135TA3497

- 12-90 VDC
- **Waterproof IP65**
- **1 adjustable user code.**  
With the PSL installed, the vehicle can not be started without entering the 4-digit user code.
- **1 fixed supervisor code.**  
For security reasons, the PSL user code can be changed by the supervisor.

## PROGRAMMABLE SECURITY LOCK PSL+

The PSL+™ Programmable Security Lock is an enhanced version of our familiar PSL™ product with several additional features. Like the original, this version is primarily designed for use with both battery and I.C. powered vehicles to prevent unauthorized operation of the vehicle. In addition, however, the PSL+ has expanded the PSL concept by incorporating several useful new functions.

### REF 135TA3498

- 12-90 VDC
- **Waterproof IP65**
- **Up to 99 different users/drivers.**  
Once installed, the PSL+ requires entry of a 2-digit user number and valid 4-digit access code before the vehicle can be operated. All user codes can be reprogrammed and unused user numbers can be temporarily disabled for additional security.
- **1 programmable supervisor code.**  
Even the supervisor's access code can be changed using the factory programmed reset code, linked to the serial number of your PSL+.
- **Last user identification.**  
The PSL+ can identify to the supervisor the user number of the last user of a vehicle.
- **Automatic shut-off after a preset period of vehicle inactivity.**  
The PSL+ incorporates a feature that detects vehicle activity. If the vehicle has been inactive beyond a specified period of time, the PSL+ will deactivate, securing the vehicle. This feature can be activated or deactivated as desired.
- **Maintenance alert after a preset number of hours.**  
The PSL+ can accumulate vehicle usage time and provide audible and visible signals indicating when vehicle maintenance is due. After maintenance is performed, the cycle can be reset as desired. This feature can be activated or deactivated by the supervisor.
- **Accumulated time.**  
The PSL+ can accumulate total vehicle usage time. This accumulated time can be accessed through the supervisor code.

## ACCESS CONTROL SYSTEM WITH ELECTRONIC KEYS

### Basic version: access control

Item	Description	REF
Control box 12-80 VDC	With key reader and wiring harness	<a href="#">135TA3501</a>
Starter kit	Includes 3 keys: • Green: for programming • Orange: immobilization and restart • Red: erasing data	<a href="#">135TA3502</a>
Driver keys	Blue Black	<a href="#">135TA3503</a> <a href="#">135TA3504</a>
Power relays	Obligatory to install a power relay. 12 V 24 V 48 V 80 V	<a href="#">135TA3505</a> <a href="#">135TA3506</a> <a href="#">135TA3507</a> <a href="#">135TA3508</a>
Starting button	For use on IC trucks	<a href="#">135TA3509</a>
Shock detector	Connecting the optional shock detector to the access control system, allows you to activate an external horn or to slow down the truck when a preset shock level has been exceeded.	<a href="#">135TA3510</a>
Software kit with PC interface, needed if a shock detector is used.	For easy and fast programming of the shock detector and driver keys. Includes PC key reader and 3 keys.	<a href="#">135TA3511</a>

#### Technical specifications

- Operating voltage: 12-80 VDC
- Working temperature: -20 °C to +60 °C
- Capacity: 40 users
- Programming: no software/only one initialization key is needed
- Dimensions box: 80 x 47 x 30 mm (LxWxH)

### Complete data logging system with optional shock detector

This system has been specially designed for EASY programming. A simplified software package allows you to start up the system in 3 steps:

- Creation of the forklifts
- Creation of the drivers
- Assigning the different drivers to the forklifts

Simplified, but complete system to manage the drivers with date and hour of usage. With the optional shock detector, the system also indicates the G-value of the shocks.

EASY data retrieving with the picking box.

Item	Description	REF
Control box 12-80 VDC	With key reader and wiring harness	<a href="#">135TA3512</a>
Driver keys	Blue Black	<a href="#">135TA3503</a> <a href="#">135TA3504</a>
Starting button	For use on IC trucks	<a href="#">135TA3509</a>
Software kit	For keys management	<a href="#">135TA3513</a>
Picking box	For easy data retrieving	<a href="#">135TA3514</a>
Shock detector	For shock management	<a href="#">135TA3510</a>

#### Technical specifications

- Operating voltage: 12-80 VDC
- Working temperature: -20 °C to +60 °C
- Programming: software package
- Capacity: max 10 forklifts/driver
- Output: 2 outputs
- Input: 6 inputs
- Dimensions box: 113 x 76 x 32 mm (LxWxH)

# PROGRAMMABLE CODE SWITCH
